Type C - Steady Burn
Type D - 360-degree Steady Burn

REFERENCE:

2000 DOTD Standard Specifications, Subsection 1018.12

NOTE:

Warning lights on this list shall not require further laboratory testing prior to use on projects.

However, at the time of installation, the contractor shall furnish the engineer with a notarized certificate stating: (1) the proposed total number of warning lights to be used, (2) their type, (3) trade name, and (4) the manufacturer's name and model number as shown on this list. The certificate shall also state that each light assembly has been tested prior to installation on the project and is functioning properly and shall be maintained in satisfactory working order when in use.

No information contained in this list is to be used for promotional purposes.
