REFERENCE:

2000 DOTD Standard Specifications, Subsections 501.02(b)(1) and 1002.02(b)

NOTE:

Any silicone additive on this list may be used without sampling and pretesting provided it is properly identified as being the specific product on the list. However, sampling and testing before use may be required whenever a product is questionable for any reason.

Any deviation in performance from the product originally approved may result in removal of the product from the qualified list.

No information contained in this list is to be used for promotional purposes.
